

Customer Journey Map

Assumption-based API user journey

Project	AI-BlogNest API	Team ID	6ab6286e14835f68f938d881
Leader	S. Rushyan	Date	27-09-2026
Members	K. Anandhan, M. Neelakandan, M. Sanjay, D. Jeevan Kumar	Dept	Computer Science

Journey Basis

A design journey for an API client user; it is not based on a completed user study.

Access

- Goal: register and sign in.
- Touchpoints: POST /api/auth/register and POST /api/auth/login.
- Friction: invalid input or credentials; opportunity: clear validation and JWT response.

Profile and Blog

- Profile: GET /api/auth/profile with token; friction: missing/invalid token.
- Manage: create and list blog posts; friction: invalid payload or missing record.
- Opportunity: consistent JSON results and understandable errors.

AI Assist and Organize

- Generate or summarize through Gemini-backed endpoints.
- Potential friction: upstream service delay or availability.
- Use category information consistently on blog content.
